PROGRAM GUIDE

COLLEGE DESIGNED FOR YOUR COMMUNITY

ONUPlus is online courses from Olivet, designed for your local community, church, or organization. You can earn a fully accredited degree from home, allowing you to stay involved in your church and community. Courses feature an interactive, hybrid model where professors provide one hour of live instruction over video conferencing. You will complete assignments, discussions, and learning activities at your own pace each week. In addition to coursework, sites offer leadership training, practical experience, and engaging activities to support you within community on your journey.

LIFE FLEXIBILITY

Through ONUPlus, you will earn a degree while maintaining a strong connection with your local community.

REDUCED TUITION

Earn up to 36 credit hours annually, at a cost of \$10,000 per year. And Financial Aid is available.

PRACTICAL LEARNING

Academic credit can be earned for up to six semesters while you to obtain first-hand leadership, ministry, and workplace experience in your chosen field.

FOUNDED IN 1907, Olivet Nazarene University is a Christian liberal arts university accredited by the Higher Learning Commission, a member of the North Central Association, and affiliated with the Church of the Nazarene. Olivet exists to provide a university-level liberal arts “Education with a Christian Purpose.” With a main campus in Bourbonnais, Illinois, just 45 miles from Chicago, Olivet serves about 3,700 students on campus and online.

Early Childhood Education	<i>Page 12</i>

2-Year

Business Administration	<i>Page 13</i>
Pre-Major Courses in Education	<i>Page 14</i>
Additional Pre-Major Courses	<i>Page 14</i>

BUSINESS ADMINISTRATION

THE BACHELOR OF SCIENCE (B.S.) IN BUSINESS is a program designed to expose students to the qualitative and quantitative aspects of business, including human resources, information technology, finance, economics, and marketing. The program focuses on the integration of real-life experience into the academic coursework to apply critical thinking skills to identify, analyze, and solve business-related problems from a Christian worldview.

CHRISTIAN MINISTRY

THE BACHELOR OF SCIENCE (B.S.) IN CHRISTIAN MINISTRY interweaves an academic and practical education for ministry, preparing students to serve God and people in the setting of today's Church. This program provides entry-level knowledge and skills in the areas of biblical studies, theology, philosophy, and the history of Christianity, as well as practices such as Christian education and spiritual formation.

CHILD DEVELOPMENT

THE BACHELOR OF SCIENCE (B.S.) IN CHILD DEVELOPMENT is designed for the student who wants to work with children outside of a classroom setting. Child development offers a holistic approach to child studies - focusing on a child's physical, emotional, social, and intellectual development. At Olivet, students will plan and design activities for young children and learn how to identify emotional or developmental problems.

COMPUTER SCIENCE

THE BACHELOR OF SCIENCE (B.S.) IN COMPUTER SCIENCE is designed so that students will have a foundation in a wide range of disciplines in the Computer Science and Emerging Technologies (CSET) field. Students will take CSET core courses intermixing them with courses specific to their concentration. CSET offers three concentrations to choose from in the B.S. in Computer Science program: Software Development, Software Entrepreneurship, and Network & Data Communications.

COMPUTING TECHNOLOGY

THE BACHELOR OF ARTS (B.A.) IN COMPUTING TECHNOLOGY is tailored to each student's interests in the field of computer science. The Computer Science Core classes will give you all of the information you need to get started and advanced classes allow you to gain further experience in different areas. This degree is helpful for those who may not be seeking technical knowledge, but rather a broader and more general understanding of the entire field. Whether you are going into the business world, or looking to move into an IT specialty, you will have the skills to excel wherever you decide to go.

CYBERSECURITY

THE BACHELOR OF SCIENCE (B.S.) IN CYBERSECURITY prepares students for in-demand, global positions in education, military, healthcare, criminal justice, or business. This program focuses on developing the technical competence needed to fill the growing number of positions across the world. By taking several additional network-specific courses, students may earn a double major in Computer Science and Cybersecurity.

EARLY CHILDHOOD EDUCATION

THE BACHELOR OF SCIENCE (B.S.) IN EARLY CHILDHOOD EDUCATION is a program suited for those with a heart for teaching young children. This degree will prepare students for the Illinois Early Childhood Professional Educator License / ESL endorsement. At Olivet, early childhood education majors have opportunities in and outside the classroom to learn and grow in their field. These students will study instructional methods, children's literature, language development, and sociology of the family, as well as learn about the philosophies of early childhood education.

BUSINESS ADMINISTRATION

THE ASSOCIATE OF SCIENCE (A.S.) IN BUSINESS is a program designed to challenge students to learn the foundational aspects of business, equipping them for entry level positions within the business world OR as preparation for continuing to earn a bachelor's degree in business from a Christian worldview.

PRE-MAJOR COURSES

Students can complete two years of pre-major coursework at an ONUPlus Extension Site, then complete years 3 and 4 on the main campus in Bourbonnais, Illinois, leading to Bachelor of Science degrees in these majors.

Students interested in pursuing a degree in **education** will find a range of pre-major choices available to them at their ONUPlus site.

- Elementary Education
- English Education
- Mathematics Education
- Special Education
- Social Science Education

ONUPlus offers a range of additional pre-major programs, further expanding the array of choices available to students.

- Actuarial Science
- Communication
- Data Science
- Mathematics
- Psychology

“ You are designed for purpose, in God, as you are equipped for a career. Olivet has alumni in a diverse array of fields – from working for NASA, to being a secret service agent. As you pursue your studies through ONUPlus, just imagine where your life might go. ”

Dr. Gregg Chenoweth, President, Olivet Nazarene University
